

**Monthly Expenses** - Monthly expenses may be fixed/recurring expenses or periodic/variable expenses. To calculate monthly expenses, keep all your receipts for cash payments and track expenses using a credit card or debit card statement. Your credit card mobile app may feature budgeting tools. Average your monthly expenses in any category by month and use the amount as your Monthly Budget. Compare Monthly Budget with Monthly Actual expenses and adjust your budget as needed. For healthcare, indicate out of pocket expenses (not payroll-deducted monthly insurance premiums).
